

This document contains data for public schools that did not effectively report results for the Grade 4 and Grade 8 English Language Arts (ELA) and Mathematics assessments, but who did submit student answer sheets for scoring. For these tests for these schools, we here show the preliminary research results that were received directly from the CTB-McGraw Hill service that scaled the raw response data. Because these assessment results for these schools were not included in the 2000 School Report Card district totals, we also include summary totals for the districts for these assessments. These district summaries are based on the same CTB-McGraw Hill research file, and do not reflect any corrections to the original CTB-McGraw Hill research file for other schools in the districts that do appear in the School Report Card database.

#### 4ELA School Data

	BEDS Code	Building Name	Number of Students Tested	Mean ELA Scale Score	# Students Level 1	# Students Level 2	# Students Level 3	# Students Level 4
1	280503060001	BAYVILLE ES	78	660	1	17	54	6

#### 4 ELA District Data

	BEDS District Code	District Name	Number of Students Tested	Mean ELA Scale Score	# Students Level 1	# Students Level 2	# Students Level 3	# Students Level 4
1	280503	LOCUST VALLEY CENTRAL SCHOOL	161	662	1	30	117	13

**4 Math School Data**

	BEDS Building Code	Building Name	Number of Students Tested	Mean Math Scale Score	# Students Level 1	# Students Level 2	# Students Level 3	# Students Level 4
